Untarnished words of Set

Throughout history man has searched for god, they have searched in the heavens and have searched in the churches, but they have not found what they were told, they find confusion, division, hate, jealousy and anger if you are not loyal to that god.

But know that I am the true god upon this earth, it is from me that all has been created, and that reading this book, you have started your path towards me, the false religions that have corrupted the mind, the heart and the soul of man can no longer silence my children.

You are of me, and I am with you, even you who hate me and call me evil and conjure real images of evil and send them my way, know that I do love all my children and I know it's not your fault you are led astray, the images of the gods have been destroyed, and all history has been changed to fit the narrative that gods are evil, and that man must be like the christian god in order to reach heaven.

Heaven is here upon this garden, upon the mother of whom you call earth, my very lover, the Yang to my Yin...mankind is tired of the lies and many are flocking back to me, the enemy hates this because I do not demand you obey or worship me, no I only wish that you truly be yourself.

Know thyself means to know that you are of the Father and the Mother and the Elements and the Heavens above, they are all aspects of you, my children reading these words you know them to be true, the false god says have faith in me and trust in me, I say ***“No, Trust in yourself, and you will know true divinity and will learn to build the rainbow bridge to me (Empowering the chakras, The Aura, The Temple, The Astral Double) and finally drinking from the gods themselves.”***

Man should not fear god, for he is a god yet unknown to himself... This means be true and act with love of all you do, because it is from love you are held together.

The Satanic Bible

If you have read, The book of law, The satanic bible or the diabolicon know that this book is NOTHING like those books, only the negative aspects are discussed, and it leads my children to think that I am of these desires, that I want to see more destruction and chaos, That Blasphemy, That Death and all aspects of revenge are pillars of my house - **Know This: My garden is a garden of love, lust, passion and desire**, Never should man or woman turn against man or woman, These ideas, these concepts are of the enemy, and they seek to divide and conquer my children, as the prisoners are pitted against one another so do the children who hold hatred, and malice in their hearts.

The path of darkness is the true path to the gnosis, but darkness of the soul, the darkest aspects of your animal self realized, the man or woman who follows my path, the path will find that all aspects of hate, and anger and all forms of self-destruction melt away, as was said before: *As a child, I thought as a child, I talked as a child, I believed as a child, when I learned to become a man I put away childish things.* The children awoken only move with love in their hearts, the love of the mother and the passion of the father:

Do as thou wilt, UNDER LOVE, Shall be the whole of the Law

Destruction will only lead to self-destruction as every man, every woman and every child, animal, flora and fauna is of you, to destroy them is to destroy thyself: Know not these words as doctrine but live them in your heart and awaken to the truth of the Aeon - The Aeon of Set!

Cast aside the evil in your heart, Long for gnosis and know my love personally as a friend, not a god, not a higher being, but a personal friend, as a father who loves his children,

ONLY FROM LOVE CAN ONE KNOW ME, TO IGNORE THIS YOU WILL ONLY KNOW OF ME THAT OF WHICH YOU KNOW OF YOURSELF - TO LOVE THYSELF IS TO LOVE ALL CREATION: SEEK LOVE, SEEK GNOSIS, FIGHT EVIL AND SPREAD LOVE

Chapter 1

From the Cock all springs forth

1 Satan is God, Cock is God, God is Cock and Satan is Cock; Satan is Set; Set is Darkness of the Light; Satan is the Creator; The Zeus; The One; The Monad **2** From him flow the elements **3** The Fire, The Water, The Air, The Earth and the essence that binds them, Ether **4** From the elements sprang life, The Fire spirits, The Water Spirits, The Air spirits and the Spirits within the Earth and within them all The Essence, The Ether **5** With this Satan looked upon the earth and the waters and saw within him the divine light and split it. **6** Lilith; Hera; The Mother of the earth took form, and together they are the two parts of creation itself, the aspects of creation **7** From which they looked to each other and found the beauty within one another and fucked, The Father with his passion and desire and the Mother with her Love and Compassion, and they gave birth to Adam; Apollo.

8 Ignorant to the father and the mother he was born from the earth and his spark lay dormant **9** Satan spoke to Adam: *“Rejoice for you are a child of Set, born of the earth and in the womb of your Mother”* **10** Lilith came to Adam: *“Rejoice my child for you were born of me, from your father you have the Fire and the Earth and from me, you have the Waters and the Air”* **11** They both spake *“And within you is the essence of us, which animates you and drives you, your passions are my passions, desires of my desires, your lust is my lust and your heart is of our heart”*

12 Within the earth lay beasts and animals of all forms, shapes and sizes, Adam lay with all of them, one by one **13** He lay with the females and the males, **14** using his divine power he populated the earth having the power of the mother and father which flowed in him **15** teaching him all forms of fuck, fornication and depravity **16** Everlasting glory and satisfaction was found **17** Adam fucked for 6 millions years 6 hundred and 6 days populating and making the earth a true paradise **18** After this Adam rested, and Satan visited him in his garden he made that was populated by all forms of life

19 The lust of Adam inspired the father and from Adam he took the divine spark and split it in 2 once again **20** Eve lay next to Adam like him but of the essence of Lilith, she lay dormant, inanimate so Satan breathed into her the spark of him, which was of Lilith. **21** She arose and knew Adam, felt his fiery passion from the Father and the Lust of desire from the Mother

22 She climbed upon his hard erect cock and rode him, the passion of their fuck stired the entire earth, the heavens above and the earth beneath them quaked with pleasure **23** They again

fucked for 6 million 6 hundred and 6 days and on the very next day Adam shot his final load of semen within her

24 After this Eve fell off Adam and was transcended, the eons of her fuck awakened within her absolute divinity and with Adam as the two were transformed their souls rose and expanded **25** Mother Lilith and Father Satan watched as the spark in them expanded and shine as bright as they did, **26** They rose from the ground and ascended to the heavens and saw the Mother and Father in a loving embrace **27**, and they knew that they were of the mother and the father

Chapter 2 **Seth and Adamos**

1 When eve returned to the earth she gave birth to two sons, Seth and Adamos **2** Seth was born from the Father, he ruled the Elements of Fire and Water **3** Adamos was born from the Mother, he ruled the Elements of Air and Earth **4** Adam took Seth and taught him to fuck and procreate with the male animals **5** Eve took Adamos and saw in him the image of Satan and of Adam, her passion overtook her and **6** while drunk on her lust taught him to Fornicate and to Fuck with the female animals after fucking him and taking his seed into herself.

7 In time Adamos and Seth found each other's sexual embrace to be a special power, **8** A power that did not create anything that could walk the earth, but pure essence **9** Satan watched as his sons fucked and ignited themselves in a powerful Ecstasy **10** from their lust and passion was born intense fire that pleased the father greatly **11** Lilith and Satan spoke to the Seth and Adamos: *"What is this that you have done?, found love within each other's embrace, Fuck for the passion and not for the population", "Fornicate for the essence of love itself as it is now, so shall it always be"*

12 This embrace of son and son lasted for eons more than 6 million years and 6 more than 6 of when Eve and Adam fucked **13** When they finished their embrace they awoke from their dream and looked to the garden **14** which was filled with many males and many females as Eve and Adam had populated the earth during the **15** Eons of their erotica. **16** *"Man shall Fuck man and women and animal and all life from which he comes; Women will lay with man and with women and with animal together as the children awaken to their divinity that all is from them and so it is said of this house, our garden"* **17** *"The house of Satan knows no division"* and the children of set; seth are his children **18** as it was, so shall it always be

19 Satan came to Seth in a vision as he masturbated and spoke: *"Magick is the art of communicating with the Father and the Mother spirits* **20** *Upon the earth and within the depths and filling the skies are all class of the invisible sons and daughters of the Father and the Mother* **21** *The bringers of knowledge to the children of Satan,* **22** *the young, the old, the new and the old, all the knowledge of the Father and the Mother* **23** *and all their children are of the children of Satan;Seth;Adam* **24** *The sons shall look to the 4 directions, the 4 elements and know the essence of the* **25** *Mother spirit and the Father spirit* **26** *And forever hold it holy within their hearts and minds as it the* **27** *lifeline to the descendants of Seth"*

28 One night when Adamos lay alone in the field Lilith appeared to him in a dream and kissed his lips and caressed him and spoke *"Energy is the essence that flows through all things, the very spark of divinity* **29** *Within the sons of Satan are the 7 temples, the 7 wheels, the 7 vortexes* **30** *From these temples the sons shall erect the holy pillar of their Father and their Mother* **31**

*Spin and churn the Fire, the Water, The Air and the Earth and within them the essence which is the **32** Divine spark of him and her within them as it is within all of them **33** Hold to this truth and practice erecting of these temples to meet the Father and the Mother as it was in the beginning so shall it always be”*

Chapter 3 **Building the Temples**

1 With the population of the earth growing day by day Seth and Adamos fixed upon their fathers lessons of Magick and the mothers lessons of Energy **2** They came together and formed the church to the children of Set, to their Father whom was the god of the earth **3** Satan and Lilith became known to all the children of set **4** Through teaching the art of meditation on spirit and the gathering of energies **5** The art of spinning the 7 upon 7 upon 7 wheels of power and teaching all to know their Father and their Mother **6** The children of Satan at once knew in unison the divinity of their power **7** as it shined in them as it shines through the Mother and the Father.

8 Fixed in a fever to hear the will and desire of their creators, many took the knowledge and made of themselves altars to their power and the powers of the invisible sons and daughters **9** Several temples were erected in honor of the information and knowledge of these invisible forces **10** The Fire, The Water, The Air, The Earth and the Essence that binds them.

11 For eons mankind grew and evolved along with the gods **12** Many lived to give worship and praise to the gods they knew **13** and many more spoke with them and knew the mother and father in loving sexual embrace **14** The children of Satan built more temples and in time the pantheon of gods was formed **15** The children learned to grow and become young-adults **16** Empowering their souls and learning along with the Mother and Father spirits that created all they are.

17 In celebration the Father and Mother came down to their children in the form of a half man half woman creature, the figure was female, **18** eyes that shone as bright as the morning star **19** a face that was the image of Lilith herself, **20** Hair as blonde and golden as the sun **21** Firm supple breasts with erected nipples, **22** Standing firm, proud her penis erected the image of Satan, in its purest form **23** the engorged head that leaked a silver substance that slowly oozed from the slit **24** Long and slender legs **25** carrying a whip in one hand and **26** a dildo in the other

26 She walked into the temple of which her children erected for her, **27** she stood upon the altar and masturbated her cock **28** In unison the head of Satan;Cock;God and Lilith, the Baphomet spoke **29** *“Children upon the earth, look upon me for I am your god, know that my love and desire for my children will never falter, celebrate this day as the day of the children of Set;Seth;Satan”* **30** She was raised into the air and turned above those who had seen her **31** and she cried out in a furious passion **32** *“You are the children of the 4 Elements, The Fire that animates your mind, The Water that Sustains you, The Air that Moves within you, The Earth from which you came and the essence of which is your soul”* **33** From her mouth, from her hands, from her cock, from her ass and from her soul **34** the elements sprang forth, **35**, and she shone as the 7 colors of the 7 wheels of the 7 vortexes

36 All at once all the children upon the earth could see and feel her, **37** the union of Male and Female spirit as one and within them all was raised and the earth and the gods and **38** their children at once became as one voice, one desire and one love for eons

Chapter 1

Destruction of the Gods

1 They came from a distant galaxy **2** The source is unknown **3** They care for conquest, destruction, death and slavery **4** They landed at the temple erected by the children **5** They looked upon the gods in disgust **6** The Dirt beneath their feet was filth, the air was putrid and the waters were polluted and **7** within their forms they could not take shape **8** they could not take of the elements and **9** they could not be of the children of Satan

10 they took the children their forms, possessing them and changing them to conform to them **11** The children did not know **12** the mother and the father spirit was lost to the children **13** In their ignorance they saw they were naked and hid, **14** they fashioned clothes, and turned away from desire **15** They no longer felt the Mother and the Father

16 Among them was a powerful invisible being **17** he did not take shape but instead instructed the others **18** to take shape among the children and turn them towards his will **19** To Enslave and conquer the earth and take from the gods the children of whom they love **20** to channel their power to their invisible being whom they called god

21 Slowly the children being controlled and possessed by these beings **22** driven to turn away from the Mother and the Father **23** began to destroy their own temples and began to worship the invisible being **24** The children began to grow weaker and weaker **25** they could not live without the love of the creator, **26** they could not know life without this love

27 Satan and Lilith watched as their children were being taken and transformed **28** they wept for eons **29** they could not enter the garden for **30** it was transformed by them, **31** the essence of the Fire was diminished; man was ignorant of his divinity **32** the essence of the water was diminished; man was forced to drink from the rivers that were polluted **33** the essence of the Air was diminished; man struggled to breathe; knowing not of the nectar of the ether of which he lives **34** the essence of the Earth was diminished; man was ignorant of the Mother and her elements **35** from which he came from as he was always and always shall be

36 Adam and Eve among them were not taken but could not fight their own children **37** in a desperate rage Adam ran to Adamos and Seth who were also not taken **38** un-aged from the polluted earth from their divinity **39** They attempted to awaken the children of set **40** The enemy had taken over, the lies and the destruction of knowledge **41** The children of set rebelled against their fore-parents **42** and with knowledge of death, destruction, hate, anger and jealousy **43** they killed their parents and ate of them **44** attempting to become as they were

45 Satan and Lilith upon seeing this vicious act, **46** the destruction of their children fell to their knees as they felt the pain of the destruction **47** The 6 million 6 hundred and 666 legions of Satan stood behind him and Lilith and cried out in anguish as they could feel the Mother and Father spirits pain **48** They could not bear it **49** the sin against mankind was too great **50** and half of them fell to the earth throwing their station and becoming as forms upon the earth.

Chapter 2 **The Fall of Mankind**

1 666 years 666 days 666 months 666 days had passed **2** The earth was void of the Mother and the Father **3** mankind worshiped and was drained to death by the invisible entity, and they knew shame and anguish **4** they suffered as the leaders drank of their spirit and divinity **5** they died and was born again from **6** blasphemy of alien and the possessed children of set **7** and bore alien-children that forms could inhabit and use to increase **8** the religions they created to empower the invisible entity whom they fed and were fed from

9 Among the races were those born of pure blood, **10** the true children of set, untouched by the alien races **11** few they were they knew of their divinity and **12** passed the religion of Satan to their children **13** In secret they fucked and populated their own land **14** away from the alien races on an island that was in the center of the ocean **15** The children rebuilt the temple and began to contact the gods again **16** The invisible entity of whom was in control of many 17 of the alien-children upon the earth looked in disgust as **17** they Fucked, Fornicated, Evoked the 4 Elements and Enriched their spirits and began to elevate themselves

18 In anger the alien races seized the island **19** burned the temple, killed every man, every woman and every child **20** they again ate of their flesh **21** in anger and malice Satan sent his archeon: head commander upon which **22** the 666 crown of the 666 elements of the 666 soul resonate **23** The demon took the form of a black beast in **24** the form of a serpent and destroyed the ships which brought the murderers

25 and the demon begun to swim around the island faster and faster **26** the waters parted, and the island sank into the ocean **27** deep into the depths, plunging into the abyss **28** The beast arose from the waters and rose into the air **29** The polluted elements bound him to the earth, and he plunged back into the waters **30** Lilith and Satan looked down and saw the sinking of the island **31**, and they saw the serpent of which was cast down **32** They looked to the invisible deity and cried out *"In my temper, In my rage I curse your name, your divinity, your lies, your deceit, I banish you from my earth, from our garden, **33** you who pollutes the air, you who destroy the earth, you who poison the waters **34** you who steal my children, our children, you who hates, and flourishes in pain and is empowered by the end of life, **35** I banish your energy from my land"*

36 The invisible entity shook back and forth **37** he quaked in fear from the banishing of the Mother and the Father spirit **38** Satan and Lilith joined together and Fucked as they screamed so loud the earth began to split, and the heavens erupted with fire and from the heavens fell the brimstone of the shattered earth **39** They fucked, and fornicated and performed every depraved act they could, **40** they built upon themselves a power that was unseen to either of them **41** they fucked and screamed louder and louder until the very earth itself became like a river sinking into the oceans that flowed from their fucking **42** from her cunt flowed the rains and from his cock the thunder and lightening

43 for 666 and 666 years and 666 days and 666 seasons upon the earth was flooded **44** The serpent that lie at the ocean with the sunk island arose with the island and upon it was the children of set **45** the oceans of the Mother and Father nourished them, and they were alive once more. **46** The Enemy remained as the children only knew of the gods and not of the invisible entity that preyed upon them **47** The children would continue to build a temple to set and would worship and be happy to know their gods **48** In their ignorance the other religions prevailed and upon returning to the earth **49** They had built several churches upon which they worshiped the god **50** the false god Jehovah

51 The children attempted to spread the word of Satan, Satanism and Set **52** They were stoned, clubbed, maimed, and murdered **53** They were labeled heretics and made to be labeled as evil

54 Satan's children hid and in secret they met **55** they would form covens and practice in secret their art **56** they slowly learned that through rituals the gods could be brought to them **57** They practiced their craft of which the aliens considered wicked and evil, **58** they called this Witchcraft, and it was the instruments of the gods

Book of Witchcraft

Chapter 1

The Mother and Father spirit

1 Upon the earth, within the air, flowing with the waters and within all is the Mother and the Father, **2** As above, So below, That of which is in the heavens is reflected to that of which is in the depths **3** Above all else mind is the important aspect, as man evolves his spirit the temples only serve to remind us **4** That we are his children and her children **5** From the mind flows the vibrations that imprint upon the earth **6** So you think, so you are **7** So you feel thus you are **8** So you desire thus you receive and create

9 Seek treasure and wisdom not materials and abstinence **10** From the vibration is the rhythm of the vibration **11** that of which is of the highest vibration is invisible and from the ages and spirits of the original demons **12** that of which is the lowest vibration is that of the elements, **13** the fire, the water, the air, the earth **14** within his mind the fire of imagination to seek and imprint upon the earth his desires

15 *“We banish this evil from our land, we awaken to the sons of Adamos and Seth, we awaken to the sons of Adam and Eve, we awaken to the sons of the father Satan and the mother Lilith”*

16 *“To the north we invoke the Father spirit Satan, To the west we invoke the Mother spirit Lilith, to the south we invoke the serpent that lies at the bottom of the ocean protecting the sunken island and to the east we invoke Lucifer the morning star”*

17 *“From our lips and within our hearts and minds, we speak the ancient and forbidden language of the gods: Ave Satanas **18** in nomine sancti satanas ego abolescent falsa ex Deo hoc domui **19** Et abolescent omnia vasa Iudaeorum et christmas, et spiritus sanctus*

20 *Peto, ut daemonium non est ad invigilandum, ut sequitur voluntatem tuam, et hoc erit in domo tua nomen sanctum”*

21 *“Father Satan, who art not in heaven, but rules the earth, come into this place and fill it full of your original love and care, the love of the mother and father”*

22 *“I take back this place in your holy name, Satan;Set;Zeus, the true holy name of our god.”*

23 The Children of set will take back their land and once again make the world a pure and satanic paradise. **24** They will cast out the enemy and imprint upon the earth **25** the vibrations that disrupt the enemy

Chapter 2 **The Elements**

1 From him doth flow all the elements **2** The Fire which is expanding and burning **3** the Water which is contracting **4** The Air which balances the Expanding and the Contracting forces **5** The earth of which merges the Fire, the Water and the Air into the material **6** and Finally the essence which flows through them all

7 The Principles of creation: Mentalism, Rhythm, Vibration, Polarity, Causality and Gender **8** All things manifest within all realms of reality **9** From man the elements are made **10** within him the elements are held **11** without the elements are in balance **12** From all is the 7 principles that fall upon the 7 vortexes and the 7 wheels of mankind **13** As above, So below: The earth has the 7 vortexes and the man has the 7 vortexes **14** from them flow the energy of life **15** with them, they nourish themselves as gods

16 Within man is the holy elements **17** The semen, the urine, the feces, the breath and the blood, the perfect and divine **18** aspects of the creator mother and the creator father are within him always **19** “Masturbate and let flow the rivers of semen” **20** “Release the torrent of urine” **21** “Push the solid mass of feces upon the earth” **22** “The blood flows through me, empowering the 7 vortexes of the 7 pillars of creation of the Mother and of the Father”

Chapter 3 **The 7 vortexes**

1 The Mother and Father spirit **2** from creation and passion divided and twisted **3** The elements with the final spark into man of the 7 principles **4** First is located upon the top of the man, its power is the connection to the invisible realm of which the gods and their sons and daughters belong **5** the next is between the eyes within the forehead, the power to see the invisible within the mind **6** Located at the throat controlling the voice and passion of the man **7** The heart of man a center of emotional dominance **8** The solar 666 of the Sun vortex, the wellspring of man, the source of his motivation **9** which is controlled by the desire of the 6th vortex and below that at the bottom of the skeleton **10** is the root of which all energy flows upwards from the earth.

11 The power of the crown when realized expands and communication with the invisible is effortless **12** The power of the demonic eye when realized pierces the veil between the physical and the spiritual; awakened to the Fire of the Father **13** The power of the throat when realized allows one to speak in confidence and stand his ground as the gods did before **14** The power of the heart when realized allows one to control their emotions and transduce the lower energy into

the higher **15** The power of the solar plexus is the storage and production of the life force; **16** The essence of which all elements are held together

17 The cock and cunt when realized is the root of the sexual self; the heart of the fornicator, the adulterer and the lust of the Mother **18** The root; the bottom of the body near the anus becomes fiery hot and glows a deep red and **19** the connection to the Mother and the Earth is realized

20 *“Upon these things you must focus, relaxing the mind of the world outside the elements and the earth and the invisible; **21** Make your mind as the children built the temples to Satan; With stillness and silence **22** Still your mind and observe your thoughts **23** Within the darkness of the mind is the power of man; the fire that burns the images into your mind **24** Look within and see the 7 colored lamps, the 7 vortexes; **25** The Purity that shines as bright as the Mother and the Father **26** The Purple, The Blue, The Green, The Yellow, the Orange and finally the Red”*

Chapter 4 **The 7 Lamps**

1 Within burn the 7 lamps of creation; **2** From them spring forth the Elements and from the lips of the sons they may stoke the lamps **3** within the fire of the mind the colors should be known and see them as pyramids of the associated color, see them in their glory and illuminate them in your mind **4** After a time that each of the 7 temples are found within the mind and with great ease **5** With gusto and desire see the pyramids spinning in place **6** Glowing in power as time goes on, and they spin faster and faster **7** This empowers the field of which you exist **8** The stronger the field the more resilient you are to natural energy **9** The Aura is the field that is created from the 7 vortexes, as each grows in power the aura becomes stronger and stronger

10 As the aura gets stronger the field of awareness will expand as well, become conscious of things around you **11** even the energy and emotions of others around you **12** In this you have opened your heart and soul to the true world **13** The nature of the aura is that it takes your desire and manifests them **14** You can command the aura with a specific intent to either attracted or repulse a certain type of energy or several, all at once **15** and in time the aura learns and adapts to certain situations. **16** Now with this we can command the aura to take the shape we desire, the type of energy we wish to broadcast and can even command it to act as a shield against things that would cause us harm

17 Once the 7 vortexes are spinning of their own accord and spinning fast the energy from them will be felt in your everyday life, **18** with a still mind you can focus upon them and based on the sense of them determine hidden aspects of your surroundings of which you may not have been aware of otherwise **19** As with all things hidden and of the mind, the diligence and passion towards this exercise will bear fruitful results as long as you focus and practice often.

Chapter 5

The Temple of Set

1 Within the mind many things can happen, among them is the construction and exploration of spaces within the mind, 2 these may open actual doorways into different aspects of the heart and soul 3 One of the most important skills the witch can learn is to construct and use the temple of Set 4 This temple acts as a bridge between the celestial bodies and the astral and physical body 5 One sees and builds this temple in their mind 6 They see the walls and the structure, noting a sigil upon the wall of the Pentagram (Star points down to the Earth) 7 The floor blanketed with bedding, so one may lay down or sit in comfort.

8 The temple is to be as simple or as complex as you can imagine 9 However do not think that size or shape or even number of sections matter, as all are simply aspects of the mind 10 In truth all that matters is the conscious effort you know his temple 11 Make it as solid as the earth you walk on and when you enter it 12 Feel with all of your being you are here more than you are there in the physical body.

13 This is your personal temple, a place to meet and know yourself, spirits, gods and energy in all forms 14 Rituals should be practiced within this temple and a constant diligence to keeping up with this temple will make it more and more stronger 15 Within the walls invoke the 4 Elements of the 4 corners and 16 Realize this is a place of personal power and a safe haven. 17 By erecting the temple of Set, One builds the metaphorical but functional mount of Olympus, of which humans could communicate and know the gods.

Chapter 6

Celestial Double

1 Upon the temple there is a space that is sacred, this is your space 2 However knowing and seeing and exploring the space without a form is a shadow of the real work to be done 3 The next phase to create and inhabit a body of the same material that was used to form the temple, not stone or rock, but mental focus 4 See within the temple the formation of this body, the shape and size are again of no importance 5 However among the shape if humanoid, avoid the details as they will be revealed in time 6 Focus upon the arms and legs, hands and feet, Cock and Cunt and Anus.

7 See the form grow and take shape, becoming as solid as the walls of the temple itself 8 With effort and focus see your spirit entering this body and become this body 9 feel the body itself, the arms and legs, the feet and hands, cock, cunt and anus 10 Move the arms and legs and move the body around the temple 11 Bend over, crawl, jump and levitate around the temple. 12 The eventual goal is being more aware of the body in the temple than the body on earth.

Notes

“The Satanist thought to approach Satan through ritual. Now let the Setian shun all recitation, for the text of another is an affront to the Self. Speak rather to me as a friend, gently and without fear, and I shall hear as a friend. Do not bend your knee nor drop your eye, for such things were not done in my house at PaMat-et. “

“But speak to me at night, for the sky then becomes an entrance and not a barrier. And those who call me the Prince of Darkness do me no dishonor.”

“The Book of Coming Forth by Night” - Former head of church of Set

Song: Ego Brain - System of a Down

Life is but a dream
Drifting on a stream
A stream
Consciously it seems
All of what remains

Ego brain
Man-made shame
Shame, love after it rains

You see my pain is real
Watch my world dissolve
And pretend that none of us see the fall
As I turned to sand
You took me by the hand
And declared, that love prevails over all

I am just a man
Fighting other man
For land, for land
While I turn to sand
In spite of the pain

Ego brain
Man-made shame
Shame love after it rains

You see my pain is real
Watch my world dissolve
And pretend that none of us see the fall
As I turned to sand
You took me by the hand
And declared, that love prevails over all

All of what remains

Ego brain
Man-made shame
Shame love after it rains

You see my pain is real
Watch my world dissolve
And pretend that none of us see the fall
As I turned to sand
You took me by the hand
And declared, that love prevails over all
(Love after it rains)
